

Munitions & Environmental Remediation

GUAM, USA

Dealing with munitions and explosives of concern (MEC) is paramount to ensuring safety and adherence to schedule.

Acuity International—one of the largest commercial munitions' management and demining companies in the world—can quickly mobilize to Guam and nearby islands to provide scalable solutions for MEC clearance, while minimizing the day-to-day operational impact to our trusted partners and project stakeholders. Our local Guam office location and experience completing MEC removals on Guam makes us the best solution for munitions projects of any size or complexity.

Past performance includes MEC removals and construction support services supporting the Naval Facilities Engineering Command at both the U.S. Naval Base and Andersen Air Force Base.

No matter the project size or complexity, Acuity has experienced personnel with the ability to complete the project successfully and safely.

Munitions Response in Guam

- Experience quickly mobilizing complex projects around the world.
- Provide scalable solutions for munitions and explosives of concern while minimizing the day-to-day operational impact on the island.
- Our local Guam office and experience make us the best partner for munitions projects of any size or complexity.

The Acuity Solution

Our global in-the-field experience has provided a large lessons-learned database to develop custom solutions while maximizing available funding and ensuring successful project outcomes by:

- Providing cradle-to-grave munitions response and environmental services for ranges at active military bases, FUDS, and BRAC Commission
- Integrating experienced management and field teams with your project team to complete the project safely and successfully
- Tailoring a custom solution for your specific needs

ACTIONS WITH PURPOSE. RESULTS THAT MATTER.

About Munitions & Environmental Remediation

Our Munitions & Environmental Remediation program focuses on remediating land impacted by military training and operations into safe, usable land for continued military use or economic redevelopment. We provide government and commercial clients with solutions that address munitions and explosives management, unexploded ordnance and explosive remnants of war detection and remediation, improvised explosive device defeat, a full range of International Mine Action Standards (IMAS) demining services, Chemical Biological Radiological Nuclear and Explosives (CBRNE) assessments, training/capacity building in CBRNE and all disciplines, and munitions construction support worldwide.

44

years of government & commercial contracting experience

18K+

sites cleared of explosive hazards in 2018

800+

projects executed worldwide in 43 countries

90K+

tons of unserviceable munitions demilitarized in multiple conflict stricken countries

Licenses and Certifications Include:

ANSI/ASIS PSC. 1-2012, ISO 18788:2015, ISO 9001:2015, ISO 14001:2015, AND OHSAS 18001:2007
